Summary of Information

Individual involved is light complected, with white/grayish white hair, a slightly high-pitched voice, and generally dresses okay but is not a person overly concerned with fashion. He's in late middle age or early old age, has somewhat of a double chin or receding chin, receding or thinning hair, and likes to wear things on his head. Subject is wearing shoes, tie, and a light-colored suit, seemingly light blue. He is manipulative, but otherwise fairly easy going. His interests are his own first priority, and will seem to help other people to get them to facilitate his own ends.

There is a sense that this person is not where he's supposed to be, and is consciously aware of that fact. He doesn't, in fact, want to be known as to where he is, as that would hamper what he is about. He presently seems to be haggling or otherwise negotiating or arranging an exchange of some service in return for ~~something~~ worthwhile to him. The transaction is a business sort of connection, "like" negotiating to sell or buy or both (in the sense of "middleman"). He tends to be involved in activities where he is rewarded for services rendered or other intangibles. There seems to be some sort of complex equipment involved, that is dull, silvery metal, with many angles and surfaces, but generally blocky and round.
